

Lesson plan 2

Aims:

- To revise any grammar/structure already learnt;
- To make exercises more motivating by creating a competition.

Age: 11-14

The students are divided into 4-5 groups. At the beginning of the lesson each group is given an image of a bike divided into as many parts as the number of exercises they have to do.

The group who finish the exercise first inform the teacher about it. The teacher checks for mistakes; if there aren't any mistakes they can put one part of the bike on the board; if not, they continue the exercises until it's correct. The winning group is the one who complete the picture of the bike on the board.
