

Lesson plan 3

Aims:

- To talk about the pros and cons of cycling;
- To read for specific information a piece of authentic material about the pros and cons of cycling.

Age: 13-14

Stage 1:

The teacher asks the students to talk about the pros and cons of cycling. They are then divided into 2 groups (or 4 groups, depending on the number of students attending the class)- PRO and CON. In 15 minutes they express their opinions and justify them.

Stage 2:

The teacher invites the students to read a newspaper/ magazine article about the topic. Then they have to complete a chart and write the pros and cons they found in the article.
