

THE GEOGRAPHY LESSON SCENARIO

Subject: Natural and cultural values of the capital city.

Lesson goals:

Pupil:

- indicates the biggest attraction of the city on the map
- creates a list of cultural and natural values of the city
- prepares a cycling trip plan; the route will lead through selected objects that are cultural and natural values of the city
- acquires the ability to use the GoogleMaps application to plan a route along a cycle path

The lesson stages :

1. Explaining the terms "cultural values" and "natural values".
2. Distribution of the city plan with marked tourist facilities. Map analysis.
3. Making a list of the city tourist facilities based on the map, divided into cultural and natural values (in the form of a table):

Natural Values	Cultural Values
1.	1.
2.	2.
3.	3.

4. Planning a one-day cycling tour around the city taking into account the natural values using the GoogleMaps application
5. Presentation of works on a multimedia board.
6. Choosing the most interesting work together with the students and organizing a one-day cycling trip along the selected route.
